Needs Improvement				
Other				
Mount Eden Corrections Facility	MECF has transitioned from Serco to Departmental operation. The information required to calculate the Industry, Treatment and Learning score for MECF will be published from Q4 2016/17.			

Notes:

The model will be reviewed periodically to ensure relevance to the changing industry, treatment and learning environment.

Auckland South Corrections Facility

Under the Department's contract with SecureFuture, ASCF is required to report on outcomes rather than performance relating to the delivery of ITL programmes. ASCF is therefore not included in the ITL table. Under the contract, ASCF will begin to be measured on reducing reoffending outcomes from 1 July 2017 and the results for the 2017/18 financial year will be compared to the Department's results. The results will be available after the end of 2017/18, once the full year's result is known. As an indicator of progress, we have published additional information about ASCF which can be found [here](#).
