Table notes:

- The count of serious assaults is based on the number of victims assaulted that sustain serious injury, not the number of assault incidents. For example, an assault by two prisoners on one member of staff is counted as one assault, whereas an incident in which one prisoner assaults three staff members but only two staff sustain serious injuries would be counted as two assaults.
- The count of non-serious and assaults resulting in no injuries is based on a count of incident events.
- Year-to-date numbers in the current financial year (applicable to the period 1 July 2022 to 31 December 2022) are subject to change until the full year process has been completed, as incidents may be further investigated and reclassified.
